Subject: RE: Anti Human Trafficking Grant

Hi Dana:

As discussed yesterday via the conference call, the planned operations outlined do fall within the parameters of the grant and will work toward achieving the goals and objects of the project. You have accurately summarized Cal EMA's response. Please keep this email in your relevant grant file. It was a pleasure talking with all of you yesterday. Additionally, please keep me in mind for an operation sometime in the future. Thanks!

Subject: Anti Human Trafficking Grant

Sandra,

Thank you for your advice during our conference call today. We requested clarification regarding activities allowed in the Anti Human Trafficking grant (Grant No. ZH09010380). The issue was whether the grant would allow the San Francisco Police Department to conduct enforcement operations not outlined in the application. The application proposed undercover investigations and permit investigations; however, SFPD is now proposing aggressive street enforcement of a more general nature in response to complaints of prostitution in a particular neighborhood.

You supported the proposed activity as it still addresses the broad program goals, and the program allows modifications to address the evolving needs of a jurisdiction. Thank you very much for your support. Please confirm that I have accurately summarized your response.
